INTRODUCTION

Use this guide to set alarm points for your monitor.

## Step 1 — Enter alarm setup

- Press the **ENTER** button and select **MONITOR SETUP** from the main menu.

- Select **ALARM POINTS** from the secondary menu.

Step 2 — Change set points

- Use the **UP/DOWN** buttons to select the required high (**HI**) concentration set point.

- Press **ENTER** to confirm the change.

- Use the **UP/DOWN** buttons to select the required low (**LO**) concentration set point.

- Press **ENTER** to confirm the change.

- Use the **UP/DOWN** buttons to **ENABLE** the alarm.

- Press **ENTER** to confirm the selections and return to the main menu.

This document was generated on 2022-05-09 05:59:07 AM (MST).

Step 3 — View alarm indicators

- When the high concentration set point is exceeded, two upward arrows appear on the main display accompanied by a fast beep.

- When the low concentration set point is exceeded, two downward arrows appear on the main display accompanied by a slow beep.
