

# Connect monitor to Aeroqual Cloud using wired LAN

Written By: Tanya Taylor

## Step 1 — Check internal cable

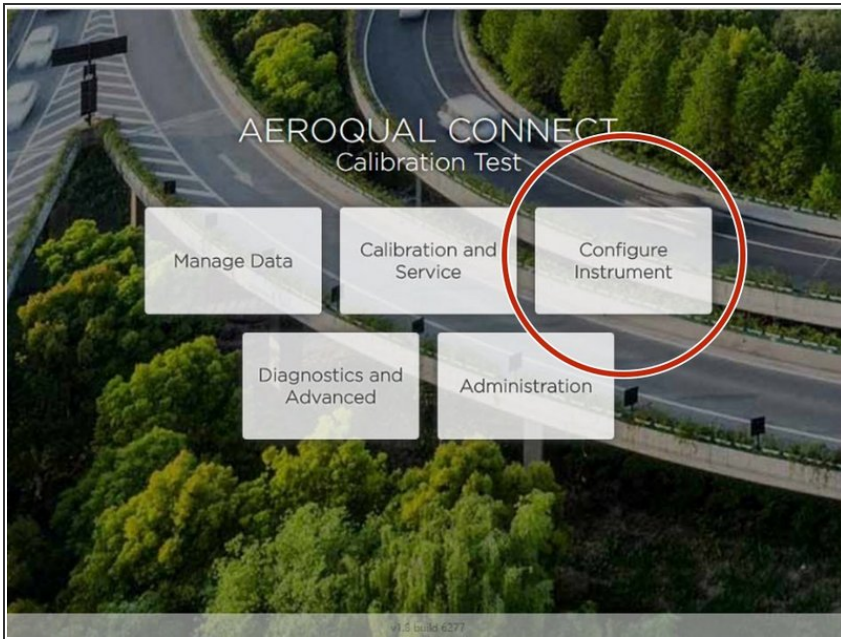

- Make sure the short blue ethernet cable is connected between the ePC and the external port of the monitor.
- In the AQM 65, the port is on the side wall.
- In the AQS 1 and Dust Sentry, the ethernet plug is on the floor of the monitor.

## Step 2 — Connect external cable

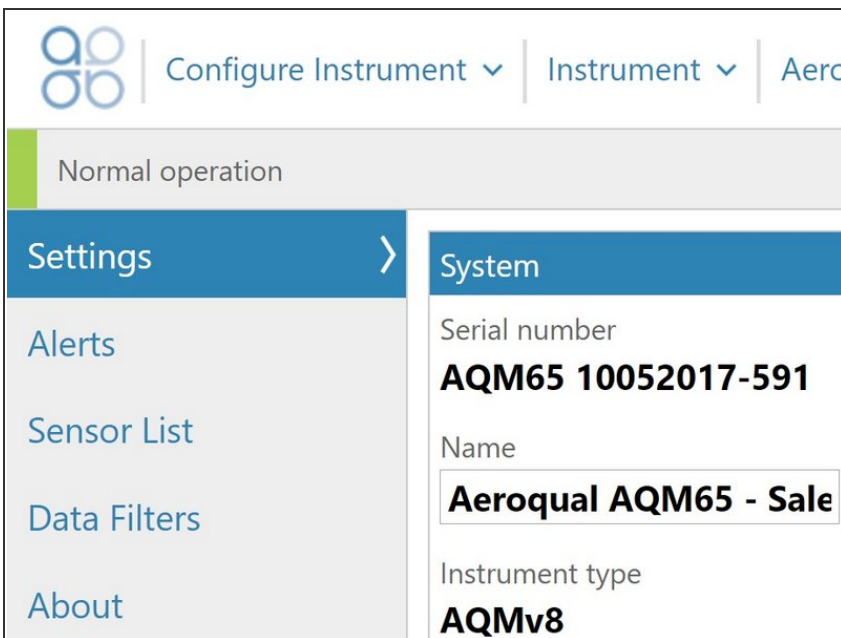

- Connect a long Ethernet cable from the outside wall of your monitor to your office router.

## Step 3 — Enter Configure app

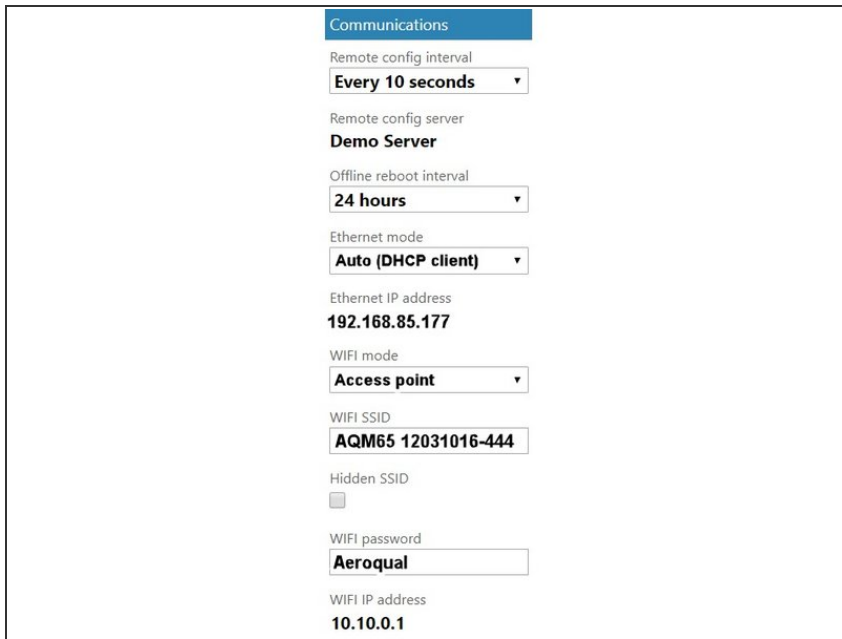

- From the Aeroqual Connect home screen, click **Configure**.

## Step 4 — Go to Settings

- Click **Settings** from the side menu.

## Step 5 — Check settings

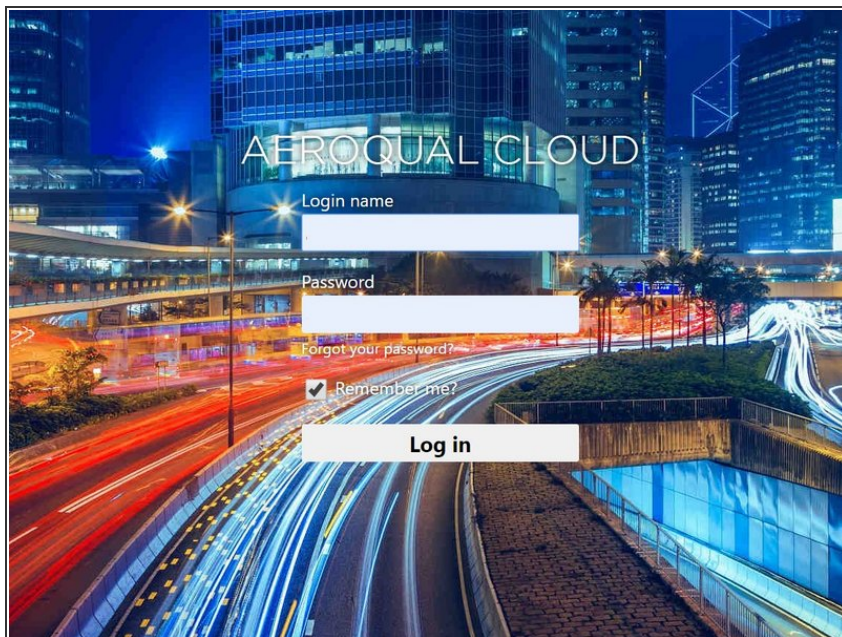

The screenshot shows the 'Communications' settings page. It includes the following fields and values:

- Remote config interval:** Every 10 seconds (dropdown menu)
- Remote config server:** Demo Server
- Offline reboot interval:** 24 hours (dropdown menu)
- Ethernet mode:** Auto (DHCP client) (dropdown menu)
- Ethernet IP address:** 192.168.85.177
- WiFi mode:** Access point (dropdown menu)
- WiFi SSID:** AQM65 12031016-444
- Hidden SSID:** ☐
- WiFi password:** Aeroqual
- WiFi IP address:** 10.10.0.1

- After several minutes of connecting your ePC to your office router, the router will automatically assign an IP address to the monitor.
- Go to the **Communications** column and check the IP address in the **Ethernet IP Address** field. It should be in the form 192.168.X.XXX .
- Make sure the **Ethernet mode** is set to **Auto (DHCP client)**.
- Leave the **WiFi mode** as **Access point** .

## Step 6 — Log in to Cloud

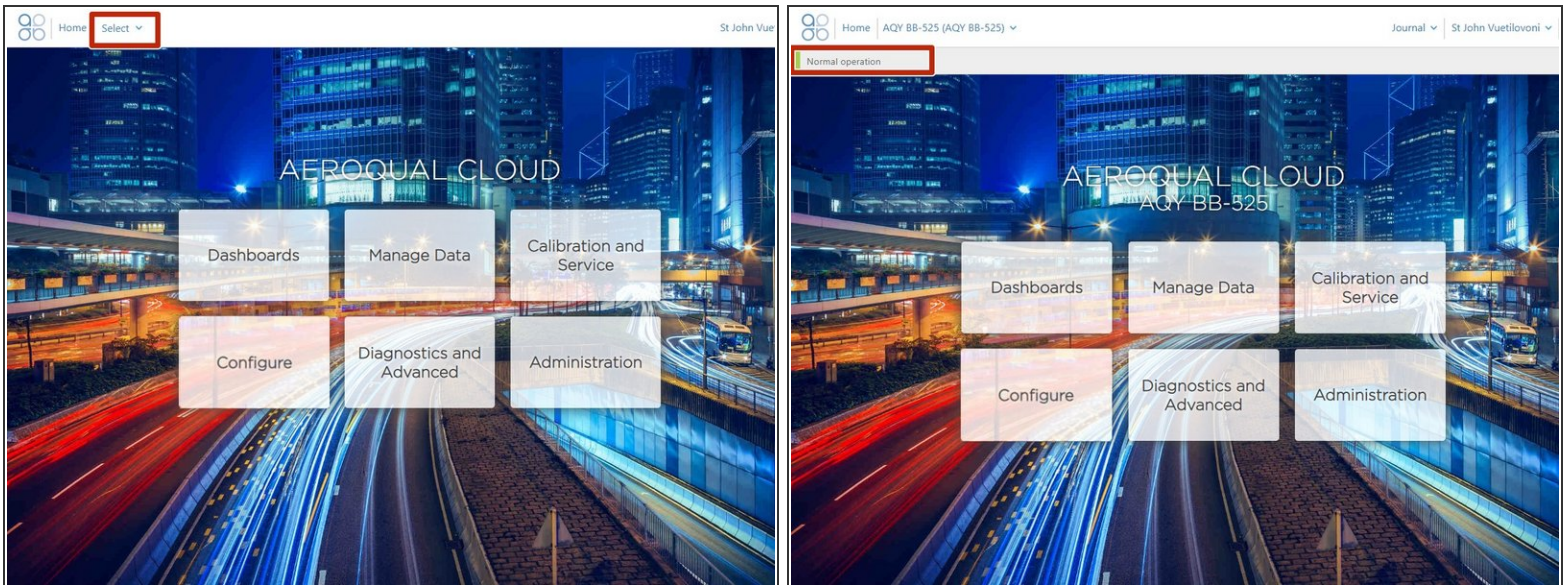

The screenshot shows the Aeroqual Cloud login page. It includes the following fields and elements:

- AEROQUAL CLOUD** (header)
- Login name:** [Redacted]
- Password:** [Redacted]
- Forgot your password?** (link)
- Remember me?** ☒
- Log in** (button)

- Reconnect your device to your office/lab Wi-Fi network to regain internet access.
- Open up a browser tab and go to <https://cloud.aeroqual.com>.
- Log in with your Aeroqual Cloud user credentials.
- If you don't have a login, contact [Technical Support](#).

## Step 7 — Find your monitor

- Click **Select** and [use the navigation pane to find your monitor](#).
- It should display as **Normal operation**, indicating the monitor is on and connected to the internet.
- ⓘ It might take several minutes for your monitor to connect to the internet, so be patient.

For further support, contact [Technical Support](#).
